SUMMARY

Motivated undergraduate student in Information Technology at the Sri Lanka Institute of Information Technology, with a strong foundation in IT systems, software development, and project coordination. Skilled in building scalable web and mobile applications using modern technologies including MERN stack and Android development. Strong in problem-solving, teamwork, and system design, with a growing interest in product development and software engineering. Passionate about learning new technologies and contributing to impactful, real-world projects.

Technical Skills

Programming Languages: Java, Python, JavaScript, Kotlin, C#

Frontend: React.js, HTML, CSS, Bootstrap

Backend: Node.js, Express.js, Spring Boot, .NET

Mobile Development: Android (Kotlin, XML)

Databases: MongoDB, MySQL, SQL Server

Tools & Platforms: GitHub, VS Code, Android Studio, IntelliJ, Eclipse, Visual Studio, Figma, XAMPP

Academic Projects

CanteenPro – Smart Canteen Management System (Ongoing)

- Developing a full-stack web application to digitize canteen ordering and reduce waiting time.
- Designed and implemented user authentication and secure login system.
- Built dynamic cart, order placement, and real-time order tracking features.
- Developed RESTful APIs for managing users, orders, and canteen operations.
- Collaborating in a team using Git with feature-based branching.
- Technologies: MongoDB, Express.js, React.js, Node.js, JavaScript

TravelEase - Online Travel Management System

- Led team collaboration in developing a full-stack application for travel bookings and equipment rentals.
- Implemented secure login, admin dashboard and real-time store tracking features.
- Integrated MongoDB for data management and Express.js backend for API handling.
- Technologies Used: MongoDB, Express.js, React.js, Node.js, JavaScript, HTML/Css, Bootstrap

Personal Finance Tracker

- Built a Kotlin-based finance tracker app to manage daily expenses and monthly budgets.
- Added Category wise spending analysis and budget alerts using SharedPreferences.
- Focused on clean UI/UX with clear visualizations of financial data.
- Technologies Used: Kotlin, Android studio, SharedPreferences, XML

PlantyLife- Online Plant Ordering App

- Coordinated feature scoping and onboarding workflow design.
- Managed app navigation structure and order confirmation process while ensuring user-friendly experience.
- Created an Android app using Kotlin with intuitive UI for browsing and ordering plants.
- Technologies Used: Kotlin, Android Studio, XML

Online shopping store

- Developed a Java- based application for online shopping store with full CRUD with functionality.
- Designed user authentication workflows and role-based access control.
- Technologies Used: Java, JDBC, MySQL, Eclipse

Education

Sri Lanka Institute of Information Technology

July 2023 - Present

- BSc (Hons) degree in Information Technology

Diploma in Information Technology

February 2023 - February 2024

- ESoft Metro Campus, Gampaha

Diploma in English

February 2023 - October 2023

- ESoft Metro Campus, Gampaha

GCE Advanced Level Examination

- Holy Cross College, Gampaha (2007- 2023)
Successfully passed the GCE Advanced Level examination in 2022/2023, Specializing in the Mathematics Stream.
